

Activity information sheet

## Heavy Truck

**Unleash your team's engineering prowess and conquer the heavy-truck challenge.**

Welcome to the Heavy-Truck challenge! Get ready for an exhilarating and creative team-building activity that will put your problem-solving and communication skills to the test.

### How it Works:

In this activity, your team will be provided with cutout cardboard pieces to build an intricate, self-assembly mechanical heavy-truck model. Your team will need to work together to carefully assemble each part of the truck, making sure that everything fits perfectly to create a functioning mechanical model.

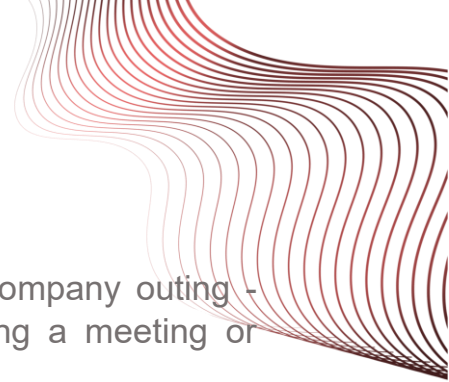

Each member of your team will have a specific role to play in the construction process, and clear communication will be essential to ensure that everything is put together correctly. This activity will require attention to detail, patience, and teamwork to complete.

The best part? Once your team has successfully assembled the heavy-truck model, you will be able to see the tangible result of your hard work and collaboration. It's an exciting and rewarding experience that will leave you feeling accomplished and energized.
